RAPID SHIP SENSORS, STOCK WIRE AND CONNECTORS

New Rapid Ship Program Responds to Your Immediate Sensing Needs

Capabilities

Watlow offers the most complete line of temperature sensors and accessories in the industry, and has been doing so since 1914. Our full product offering includes:

- General application thermocouples
- Mineral insulated thermocouples
- RTDs and thermistors
- Connectors, transmitters and other accessories
- Thermocouple and extension wire
- Infrared sensors

Watlow is a fully integrated sensor manufacturer. This gives us full design control including the selection of alloy and sheath materials. Our design engineers have solved the most difficult and most basic temperature measurement challenges across scores of industries. Our sensors can be configured in millions of different ways to meet unique and specific needs and applications. Our distributors and sales engineers are fully equipped to help you select the right sensor to meet your performance, availability and pricing requirements.

In an ever-demanding industry where every minute counts, you can rely on Watlow to get you the products you need when you need them.

Rapid Ship

Watlow is pleased to announce a significant improvement to our Rapid Ship sensor program. Over 400 pre-designed sensors, connectors and wire products can now be shipped in one day at no extra charge. The products in this program were selected to meet the majority

of your day-to-day temperature measurement requirements.

Same day and one day expedite programs are also in place for our full range of sensor products to meet your unexpected or emergency requirements.

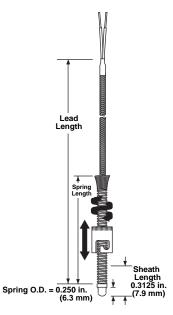

Watlow is fully certified to ISO9001 : 2000 and takes pride in the quality and performance of the products we manufacture.

To receive a copy of our full catalog please call your local distributor or 1-800-WATLOW2.

Thank You! Thank you for choosing Watlow for your temperature sensing needs.

General Applications

We are ready to meet your sensing needs with our extensive offering of thermocouples. However, if the variations listed in this brochure are unable to satisfy your requirements, Watlow can custom manufacture sensors to your exact specifications. Contact your Watlow representative or view our full-line catalog for details.

Adjustable Spring (Style 10)

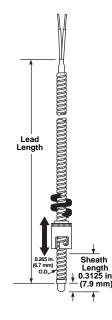

Rapid Ship adjustable spring thermocouples come with 24 gauge stranded fiberglass lead with stainless steel overbraid and grounded junction.

Thermocouples

General Applications

Flange (Style 25)

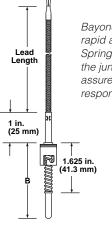

Rapid Ship flange thermocouples come with $\frac{3}{6}$ inch diameter sheath, 24 gauge stranded fiberglass lead with stainless steel overbraid, grounded junction and a split lead termination.

| Calibration | | B" ension (mm) | Lead Length in. (mm) | | Part Number |
|-------------|---|----------------------|----------------------------|--------|-------------|
| | 2 | (54) | 48 | (1219) | 25DJSGD048A |

| | 4 | | 96 | (2438) | 25DJSGH096A |

Rigid Sheath Fixed Bayonet (Style 30)

Rapid Ship rigid sheath fixed bayonet thermocouples come with $\frac{3}{16}$ inch diameter sheath, 24 gauge stranded fiberglass lead with stainless steel overbraid, grounded junction and a split lead termination.

| Calibration | | B" ension (mm) | Lead Length in. (mm) | | Part Number |
|-------------|---|----------------------|----------------------------|--------|-------------|
| | 2 | (E1) | 48 | (1219) | 30DJSGD048A |

| | 4 | (102) | 96 | (2438) | 30DJSGH096A |

Bayonet fittings allow rapid attachment. Spring pressure on the junction tip assures fast response time.

Rigid sheath provides protection and accurate placement through bulkheads or platens. Use with a compression fitting for water tight immersion application.

Large Diameter Rigid Sheath (Style 40)

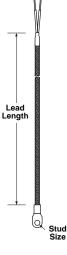

Rapid Ship large diameter rigid sheath thermocouples come with ¼ inch diameter sheath, 20 gauge stranded fiberglass lead with stainless steel overbraid, grounded junction and a split lead termination.

| Calibration | | eath ngth (mm) | Lead Length in. (mm) | | Part Number |

Resistance Temperature Devices (RTDs)

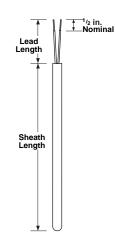

RTD Styles

Watlow's platinum resistance elements are specially designed to ensure precise and repeatable temperature versus resistance characteristics. The sensors are made with controlled purity platinum, have high purity ceramic components and are constructed in a unique strain-free manner.

RTD Style RB Standard Industrial Insulated Leads

Rapid Ship style RB RTDs come with 100Ω DIN 0.00385 curve, 316 stainless steel, 0.188 inch diameter, TFE three-wire, four foot leads, temperature rating -50 to 260°C (-58 to 500°F), standard split end lead termination and no mounting fittings.

Thermowells

Watlow offers a full line of thermowells and protecting tubes to meet varying requirements. While both types are designed to protect your sensor in an application, the two are different in terms of their construction and capabilities.

Threaded Type–Straight

Rapid Ship straight thermowells come in four lengths in 316 stainless steel with a $\frac{3}{10}$ inch NPT process connection, a $\frac{3}{10}$ inch lag length and a 0.260 in. bore diameter with a $\frac{1}{2}$ inch NPT connection.
